

60CM Gas Built-in Oven 5 functions Heritage Series

F605HERGKNE

This Bertazzoni Heritage Series 60cm built-in gas oven with gas grill offers a best-in-class cavity capacity of 76 litres. With 5 functions it is ideal for fish and roasting meat as gas ovens reach a high temperature quickly, which helps to seal the food, making it crispy on the outside while retaining moisture inside. Temperature adjustments are instantaneous, which makes it a very precise way to cook. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures an even heat distribution for single and multi-level roasting and baking without flavour crossover. The oven is easily controlled by metal knobs with soft opening door with metal handle for ease of use. The door is double-glazed for safety and efficiency. Available in Matt Black, Nero décor, Ivory with chrome finish and copper finish.

Spécifications

Features

Oven cavity

Size	60 cm
Oven fuel	gas with gas grill
Oven type	fan assisted gas
