

60cm Electric Built-in Ovens 5 functions Modern Series

F605MODEKXS

The Bertazzoni Modern Series 60cm built-in electric oven has a 76 litre capacity best-in-class cavity. With 5 functions it is ideal for mid-to low- temperature cooking, such as baking or recipes that require slow cooking, like casseroles. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures even heat distribution on all five levels for roasting and baking with no flavour crossover. The infrared grill gives powerful searing and grilling over a large surface area. The oven is easily controlled by metal knobs with soft opening door with metal handle for ease of use. The door is double-glazed for safety and efficiency. Available in stainless steel.
