

60 cm built-in anticondensation hood Professional Series

KND60T1AXT

This 60 cm stainless steel under-cabinet extractor hood without duct covers, is equipped with three different levels of suction + booster. The practical and ergonomic touch controls are positioned on the elegant glass cover, which allows to increase the capture capacity and protects the wall unit from heat and cooking vapors.

The NO DRIP function avoids the formation of condensation on the kitchen surfaces by channeling it inside the tank in order to protect the kitchen doors and wall units from any vapors, while the timer function allows automatic delayed shutdown to complete the elimination of residual odors .

The LED lights provide brilliant illumination for the worktop. The anti-condensation stainless steel mesh filters are removable and dishwasher safe.

The filter maintenance indicator indicates when to clean the grease filter and replace the charcoal filter.
